PRICE LIST

All prices listed are excluding VAT

Leines 820

Dimensions: length 820 cm
width 249 cm
draft 58 cm
weight 1700 kg - 2200 kg (depending on equipment)

Drive: Underfloor motor 48 V 4800 watts - 15000 watts
From the brand manufacturer Aquamot
Infinitely variable
Aquamot AGM deep cycle & maintenance free batteries

Material: The covers: maritime artificial leather perforated or quilted, tear-resistant & breathable
The sun canopy: UV-resistant, waterproof & opaque
The tarpaulin is coated with acrylic resin on one side, hydrostatic head 750mm
The hull is made of a stable sandwich construction made of fiberglass reinforced polyester with Divinycell foam.
All lamination work is done using the hand lay-up process.
The hull is standard white RAL 9010. The deck is also a stable sandwich construction. Through sandwich construction we achieve great stability & rigidity.
